ABOUT ME

I am a Full Stack Engineer having expertise in technology stacks related to JavaScript/TypeScript like React, Node.js, Express.js, MongoDB, etc. Over the years, I have worked with multiple startups as well. I have built, designed, and automated multiple Web and Mobile-based systems. Furthermore, I have more than 5 years of hands-on experience in building and managing large-scale systems. Academically, I am a Computer Science graduate.

EXPERIENCE (5+ YEARS)

Software Engineer

07/2019 - 06/2020

Pixiders Inc.

Lahore, Pakistan

Pixiders Inc. is a Toronto based web application development company providing a wide range of web development solutions locally as well as all over the world.

- I worked on many applications here, majorly on Canadian based ERP Rewards systems. I managed multiple teams, designed and developed many systems from scratch.
- Major domain consisted of MERN, Laravel, MySQL, CI/CD.
- I managed the team of project "**Apni Sawari**" and we built the system from scratch which is now live and launched in some cities of Pakistan. This came out to be a startup on its own now. We developed its Back-End Server, Web and Mobile Applications using MERN, REST and AWS Cloud.

Co-Founder and CTO

01/2019 - 06/2019

Fotisto

Lahore, Pakistan

Fotisto is a marketplace that uses AI and Cloud-based tools to bridge clients with photographers/videographers.

- I managed the tech team and built Cloud based Web and Mobile Platform. Designed and Implemented its System to support complex Data using AWS Lambda and Azure AD.
- Major domain consisted of Laravel, MySQL, AWS, Azure and DevOps.

EDUCATION

BS Computer Science

FAST - National University of Computer and Emerging Sciences (NUCES)
